REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the Examiner has little to add to that which has already been stated during the prosecution. It must be noted, i.e. summarized, that applicants have properly changed the inventive entity of the application so as to include in the inventive entity coinventor Swanson. By doing so this has made them eligible to qualify the application as a CIP of the '621 Swanson patent, which they have so accomplished, and therefore be entitled to the priority date of the '621 patent with respect to the subject matter originally disclosed in the patent. Such subject matter includes the presence of the feathered edge perimeter of the patch, found originally in dependent claim 2, and which for claims 22 and 23 is stated to be "uneven" with respect to the feathered structure, a limitation which is believed to find inherent support in Fig 1 of the present application. As regards support for the newly added limitation to claim 2 that the body "comprises a sheet of material having a substantially uniform thickness" this is believed to find at least inherent support throughout the specification, particularly in pages 3-5 such as page 3, line 31, page 4, line 9, and page 5, lines 12 and 17-18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
